What was achieved last week?

= none

What is the focus for today?

= Connecting the backend and frontend

What blockers exist?

= cant use a pc or laptop because lack of gadget and no communication

What went well?

= when code runs

What didn't go well?

= every time the code doesn’t run

What should we start doing?

= improving the website

What should we continue doing?

= Connecting the backend and polish the website
